INSPECTORS HERE

P. M. Officials Made Annual Trip Inspecting System.

On Tuesday a special train, carrying Pere Marquette officials on the sixth annual inspection trip of the railroad was in Alma for some little time inspecting conditions here. The train consisted of an especially designed inspection car, a diner, a sleeper, and two office cars.

Numerous officials of the company including President Alfred, and general passenger and general freight agents, etc., were on the special train.

Seven committees, made up as follows are responsible for the markings:

Line and surface: Asst. General Manager A. L. Grandy, H. A. Cassil and William Madden.

Roadbed and drainage: A. R. DeWees, Supt. F. P. Little and William Meier.

Ballast dressing and shoulder. Chief Engineer J. Tuthill, James Loftus and Supt. J. A. Anderson.

Policing right of way and station grounds: Supt. W. H. Wallace, W. J. Long and N. Jorgenson.

Fences, crossings and signs: Supt. J. J. Corcoran, S. S. Smith and G. W. Trout.

Signals and interlocking appliances: H. C. Lorenson, Robert Ross, E. Smith and C. A. Nelson.

Shops, shop grounds, repair tracks and engine houses: R. J. Williams, C. K. Wood, W. G. Griffith, Charles Montgomery, P. Alquist and William Jacob.

With President Alfred are a number of general officers: E. E. Cain, general superintendent; H. O. Halsted, superintendent of car service; W. E. Wolfenden, general passenger agent; R. P. Patterson, gen'l freight agent; F. L. Oliver, superintendent of parlor and dining cars; D. W. Roberts, general storekeeper; E. O. Niles, division passenger agent, and others.

MICKIE SAYS

BOIL WATER

Advice is Given by City Physician This Week.

The following communication calling attention to some water conditions in Alma, to which a dozen cases of typhoid fever have been traced is worthy of the consideration of everyone in Alma, especially the voters.

"Boil your water. A good clear water supply is one of the important necessities of any community. Impure water is a breeder of disease.

"Typhoid fever, dysentery, and numerous other diseases are directly traceable to a polluted water supply. 'Just at this time in Alma a dozen cases of typhoid fever have made their appearance within a week, and almost every case can be traced to shallow wells, mostly situated in the outskirts of the city. These wells are generally from 12 to 14 feet in depth and are easily contaminated. The water from these wells is absolutely unsafe for drinking or for any other purpose unless boiled for fifteen minutes before using.

"The Health Department takes this method of warning the people of the city who are using water from these shallow wells and would earnestly urge boiling this water before using it if they would escape the serious consequence of contracting disease.

"If Alma had a modern water system so that we could go to the faucet in our home and procure good safe clean water for our daily use we would have little if any typhoid fever or other diseases caused by impure water.

"In our growth, expansion and prosperity we have so far failed in one very essential feature, viz: a pure water supply.

"We have made a good start. We earnestly hope that as now the opportunity is before us, we will all see the necessity and lend our aid in finishing up the job. Provide pure water for your son, your daughter and all the loved ones of your fireside, and you will cut out one of our greatest sources of infection."

FARM BUREAU

What the State Farm Bureau Hopes to Accomplish.

Last October the campaign for members in the State Farm Bureau began in Oakland County. Today there are about 90,000 members all signed up on a three year contract at \$10.00 a year, as more and more farmers see the need of the bureau.

A three year membership is necessary because the field of work is so large that to try to accomplish it all in one year would only mean failure.

Here are a few of the things the Farm Bureau will try to accomplish: First: to solve the marketing problems. All know that farm products are subject to speculations which lower the producer's price.

Farmers must handle their own goods from the farm to as near the consumer as possible. The supplies must also pass through fewer hands thus reducing the cost.

This year coal and acid phosphate were purchased by the hundreds of cars to be unloaded directly into the farmers' wagons.

Bear this in mind—the marketing department is a service agency, a part of the great organization all of which is the farmers' own creation. It does not buy and then sell. It merely takes the united orders of all the county farm bureaus and co-operative associations and buys wholesale. These orders must be bona fide or the department is not able to do the purchasing. No man can anticipate the individual farmer's need.

To make the greatest use of this department each farmer should place his order with the local county agent or co-operative manager. The aim of this department is to get the things the farmer needs by the shortest route from the manufacturer to the consumer, and for the lowest price.

Feeble Melancholy.

Melancholy, or low spirits, is that hysterical passion which forces unbidden sighs and tears. It falls upon a contented life, like a drop of ink on white paper, which is not the least stain that carries no meaning with it.—Lockhart.

FARMER'S MUTUAL NOTICE

I will be at Forest Hill, Nov. 2nd, at St. Louis Commercial Savings Bank November 6th, at Alma State Savings Bank November 13 and at any time at my residence 706 Pine Ave., for the collection of the assessment of the Farmers' Mutual Fire Insurance for 1920.

Win. C. Sullivan.

A cordial welcome awaits all who attend any of these services.

On Saturday at 4 p. m. in the church the boys and girls of the congregation between 8 and 15 years are invited to a Halloween social given by the Junior Y. P. S. C. E.

On Friday at 6 p. m. the officers and teachers of the Sunday school have a pot luck supper in the church. After the supper they will hear a report of the State Sunday school convention given by Miss Ruth von Thurn.

At 7:30 p. m. Friday the Presbyterian Y. P. S. C. E. invite the young people of the city to a young people's social in the church.

GOLDEN WEDDING

Mr. and Mrs. N. L. Care of Emerson celebrated the fiftieth anniversary of their marriage on Saturday, October 23, at their pleasant farm home. Newton L. Care and Mary C. Blackwell were married at Avon, Ohio, October 23, 1870. They came to Michigan thirty-three years ago and settled on the farm where they now live. Ten children have been born to them, only four of whom are living and were present at the anniversary. They are B. L. Case of Ithaca, who with his wife was present, Mrs. J. L. Smith of Emerson and Kenneth and Margaret, who are at home. The home was made gay with flowers the predominating note being yellow. There was an abundance of good things to eat. Many beautiful gifts were received evidencing the regard in which the couple are held by their neighbors and friends. It was an altogether delightful day enlivened by much music, four of the guests being violinists and four pianists. Many memories were recalled of the days "When you and I were young." Those who were present at the marriage fifty years ago and who came from their homes in other states to celebrate this occasion were Mr. and Mrs. Edward Cuylen of Oberlin, Ohio, and Mr. and Mrs. Elbert Cahoon of Waterville, Iowa, Mr. and Mrs. Kenneth Mitchell of Breckenridge and Mr. and Mrs. Geo. Titus of Alma were also present. All join in wishing this couple many more years of life together.

Vote "Yes" on the Water Extension Bond Issue.

REPUBLIC COMPANY WRITES ABOUT WATER

(Continued from page one)
use for cooking purposes and for bathing our children.
"We assure you that you have our earnest support in your effort to give this city what it most needs—GOOD PURE DRINKING WATER IN GOODLY QUANTITIES—and we hope the voting people of Alma will turn out and give you their every support.

"Yours very truly,
"Republic Motor Truck Co. Inc.
"By O. W. Hayes, Vice Pres. & Gen. Mgr."

Manager Reynolds since receiving this communication, has called attention to the fact that the cost of the bond issue to the entire city, will be less than half the total cost per day that the Republic has faced in getting good drinking water during the summer months, the cost being \$18.00 per day for Alma. If one considers what the cost to other concerns in Alma must be in providing good water, the total per day must be extremely large.

Alma people should also realize that providing good, safe, and clean drinking water is one of the needed things if the community is to be made attractive enough to bring to Alma other industries in the future. Sidewalks, sewers, and paving are not the only things that the city needs, as the cost of providing drinking water at the Republic shows.

See the new suits and overcoats—the natural free-set shoulders, the fine designing, the fit and drape of the collars, the rich fabrics, the appealing patterns and color tones; in single and double-breasted models.

When you think it's cold enough for an overcoat, you'll find the best overcoat you ever owned in this store.

Kuppenheimer Overcoats

The big feature about these new coats is that they are more roomy—more fullness to them than last year—they offer more protection and comfort. The predominant patterns are browns, grays and speckled greens; ulsters, ulsterettes, and form-fitting models; designed and tailored as only The House of Kuppenheimer can. A fine variety is ready now.

Come in and look them over when you have a little time to spare.

\$50, \$55, \$60, \$65

Other good coats at \$32.50 upwards
